

ORBIT

A shower revolution

DESIGN

ORBIT'S sleek, contemporary design adds a touch of style to any shower room, making it the perfect way to upgrade your existing showerhead.

AIRCORE TECHNOLOGY

Aircore Technology draws air in through an air intake and mixes it with the water flow. This creates turbulence that increases the water pressure coming out of the showerhead. You get the same powerful shower as a full flow shower, but you use up to 45% less water.

The Ecocamel shower heads gives a complete full flow spa-like shower by using the latest water and energy saving technology.

Our ground breaking range of shower heads incorporate our revolutionary Aircore technology to inject air directly into the water stream to use less water but still experience a powerful shower.

ORBIT

DIMENSIONS

Height:	253.70mm
Width:	119mm
Depth:	97.75mm
Weight:	
No of nozzles	40

MATERIAL

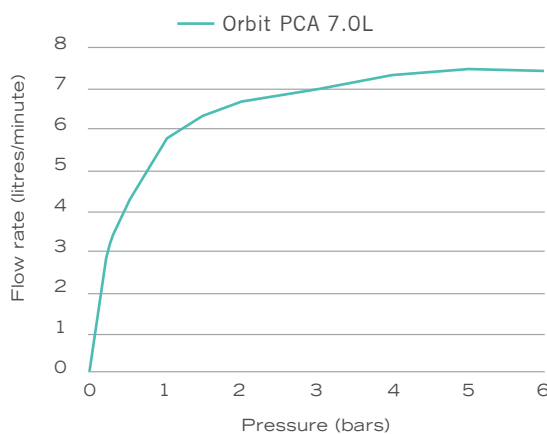

COLOURED RIM

- White
